

# Elevator.js

Elevator.js fixes those awkward "scroll to top" moments the old fashioned way.

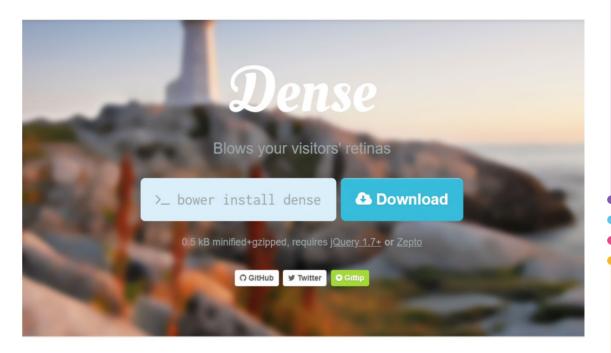

By Tim Holman • Source & Instructions • 👭

**Primer Plugin** 

#### A DEMO USAGE SUPPORTS DOCS

### **Segundo Plugin**

**Dense** is a j<u>Query</u> plugin that offers an easy way to serve device pixel ratio aware images, bringing in retina support to your website. Clear the blurry, images be crisp.

#### **Como Cambiar Los Colores**

```
input[type=text]{
    margin: 1px;
    height: 3rem;
    width: 3rem;
    border: 1px ■#ccc solid;
    font-size: 1re
                                 rgb(204, 204, 204)
    vertical-align
    text-align: ce
.btn{
    height: 3rem;
    width: 3rem;
    font-size: 1re
    vertical-align
    text-align: ce
                    Shorthand property for setting border width, style, and color.
                    Syntax: e-width> || e-style> || <color>
main{
    min-height: 10rem;
```
